

Celemi Virtual Classroom Solutions

Celemi creates solutions that make business concepts easy to understand. We move people and organizations to higher levels of performance by using our well proven methodology, The Power of Learning. This means we engage people and use interaction that enables them to discover and create their own knowledge.

Create an agile mindset

3-4 hours

- Introduction to agile principles
- Establish a common frame of reference and align on what agile means
- Experience how agile principles can be applied in typical, concrete situations
- Align on when agile is – and isn't – the right way of working

A playful approach to serious business results

1.5-2 hours

- Learn a basic business finance language
- See how improving utilization of staff affect the bottom-line
- Gain a better idea of how a change in price impacts the profit
- Gain a better understanding on how to improve cash flow and the bottom line result

Available in two versions: Service and Manufacturing

Understand the human side of change

1.5-2 hours

- Introduction to change theories
- Sharing experiences of transformation processes
- Deepening the participants' understanding of the human side of change
- Realize that you are not alone – addressing common situations and problem.

Secure project success

2-3 hours

- Warm up a project team and bring out the best in each participant.
- Prepare your people to anticipate and navigate the heat of project pitfalls.
- Improve the ability to diagnose signs and symptoms.
- Practice prioritizing to get the most value out of limited resources.
